Sciences, University of Delaware,
Newark, DE, USA

Prof. Dr. Erik Runkle

Department of Horticulture,
Michigan State University, East
Lansing, MI, USA

Deadline for manuscript
submissions:

closed (31 March 2023)

Message from the Guest Editors

In this Special Issue, we would like to offer a forum where researchers, scholars, and professionals in CEA can share opinions and research findings on the current and potential contributions of CEA to sustainable crop production and management. We welcome studies that feature state-of-the-art practices and technological advancements in areas such as LED lighting, agrivoltaics, hydroponics, aeroponics, nutrient management, sensor technologies, new crop development for CEA, environmental optimization, and their impacts on the nutrition, flavor, and quality of food crops and efficiency, productivity, profitability, and sustainability of crop production. Both research and review manuscripts will be welcome. The valuable discussion in this Special Issue will contribute to facilitating CEA development for sustainable crop production.

- aeroponics
- agrivoltaics
- controlled environment agriculture
- greenhouse production
- hydroponics
- indoor agriculture
- leafy greens
- LED lighting
- photobiology
- plant factory
- plant lighting

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
