Message from the Guest Editors

A healthy ecosystem is essential to provide the services that humans and the natural environment require and has tremendous social and economic values. With a rapid change in global natural and socioeconomic environments, achieving and maintaining ecosystem health while balancing development is a key future challenge. Therefore, the journal *Sustainability* has issued an open call for paper on “**Sustainability and Ecosystem Health: How to Balance Development and Conservation with Rapid Global Changes?**” for an upcoming Special Issue.

This Special Issue will disseminate papers that study the value of ecological services, impact of global environmental change and human activities on ecosystems, and sustainable development policies. Both theoretical and empirical papers are welcome. How conservation and development can be balanced is a key focus.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
