Message from the Guest Editors

Dear Colleagues,

The UN Decade of Ocean Science for Sustainable Development, using the philosophy of the SDGs, calls for accelerating sustainable solutions to all the world's biggest challenges, with climate change as one of the most important ones. Meeting the targets of Goal 13 (Climate) and Goal 14 (Oceans) will ensure that the targets of all other Goals are met and vice versa. Therefore, we invite research papers, inter- and transdisciplinary as well as review papers, contributing to the UN Decade of Ocean Science and the SDGs, which focus on ocean/climate issues as well as on ocean literacy and modern approaches to ocean environmental education.
