Message from the Guest Editors

Dear Colleagues,

Islands represent a special cluster, such as an independent state from member countries, with peculiar features in terms of local economy and development dynamics. Local development is more often dependent on the tourism sector and connected activities. However, tourism can bring not only development and growth but also negative effects on the local environment and residents. Because of this, the positive and negative aspects of economic development based on the tourism sector need to be taken care of and driven towards long-term wellbeing.

Thus, we need to consider a sustainable development approach based on quantitative and qualitative indicators, a wide awareness about the need to preserve and valorise local resources and the right cooperative strategies among tourism industry operators. We also need to consider the future tendencies of island development based on tourism.

We encourage researchers to highlight advances, best practices, forecasting analysis, questions and any other issue related to this topic in order to encourage a fruitful scientific debate and exchange.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
