Message from the Guest Editor

Dear Colleagues,

As places invest in development, and as urban planning agendas are realized, it is important to understand how new developments are having a profound impact on local well-being and local living environments. While investments and new developments can increase production and consumption, critical urban scholars warn us about the increased economic disparity, as well as social exclusion, that results and leaves behind communities that are struggling. Creative change is an important consideration when thinking about strategic planning, and likewise, scholars assess different impacts, may these be economic, social, or environmental. These different areas help authors frame a particular focus on issues and challenges facing sustainability.

For this Special Issue, we welcome papers that deal with a range of urban development and strategic planning issues. We ask authors to develop papers that join the focus on urban development and strategic planning, as opposed to looking at these areas as different ends of a spectrum.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
