System Engineering Development and Sustainability Applications

Guest Editors:

Dr. María Guijarro Mata-García

Dr. Joaquín Recas

Dr. Blanca Ayarzaguena

Ms. María Rodríguez

Deadline for manuscript submissions:
closed (31 May 2022)

Message from the Guest Editors

The purpose of this Special Issue is to provide a discussion forum on the most recent and innovative works in the area of climate change and artificial intelligence (AI).

Studying the impact of climate change is of particular relevance not only for climate knowledge but also for tropospheric projections. Artificial intelligence provides a way to extract information from different climate models and combine the data in a such way that patterns are clearer, so that predictions can be inducted by machine learning, big data, IoT, computer vision, and so on.

Both academic researchers and industry practitioners are welcome to a forum where the focus will be on the discussion and exchange of ideas.

Special Issue

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
