Message from the Guest Editor

We invite you to contribute to this Special Issue titled “Sustainable Innovative Economy: Technology Management and Entrepreneurship.”

Innovation is key to any country striving to build sustainable growth and welfare all across the globe. Countries are struggling to invest in diverse sets of technologies and support entrepreneurs who transform technological knowledge into innovative products and services in diverse industries. Technological changes such as the development and diffusion of artificial intelligence are taking place at an unprecedented speed.

The goal of a sustainable, innovative economy necessitates interdisciplinary research on technology management and entrepreneurship. Researchers in these two strands of disciplines could build a holistic understanding of innovation-based economic and social development. Thus, this Special Issue welcomes theoretical, empirical, and experimental studies taking the interdisciplinary challenge of broadening these two key disciplines.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
