Message from the Collection Editors

Dear Colleagues,

Researchers and academics are invited to share their thoughts and experiences in this Special Issue on the phenomenon of these tourism activities. The scope includes tourism policies and events with analytical approaches to tourism, specifically urban, rural, or spatial.

Our aim is for scientific findings to guide us in identifying solutions to urgent tourism and regional issues. Some of the topics of interest include location theory and spatial economics, location modeling, transportation, migration analysis, land use and urban development, interindustry analysis, environmental and ecological analysis, resource management, urban and regional policy analysis, geographical information systems, and spatial data analysis, as long as related to tourism activities.

We look forward to receiving articles on any topic related to tourism research and regional sciences. There are no strict thematic restrictions, and no scientific finding too small or too big to contribute to the evolving concepts and inferences on tourism research and regional sciences. Your ideas always matter.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
