Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editors

Dear Colleagues:

The present Special Issue is organized to encourage potential authors to disseminate their recent research achievements related to sustainability in civil engineering such as green building materials, structures, and techniques, while compiling the research results for potential readers of the journal ***Sustainability***.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: green building material, high-performance construction material, recycled concrete, composite structures, sustainable construction materials, structural reliability, structural strengthening and rehabilitation, structural performance with sustainable material, inspection and maintenance, and non-destructive evaluation of existing structures.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
