Dr. Kehinde Aruleba

School of Computing and Mathematical Sciences, University of Leicester, Leicester LE1 7RH, UK

Deadline for manuscript submissions:

28 February 2025

Message from the Guest Editors

To achieve their corporate sustainability goals, business leaders are increasingly adopting digital technologies to align their business practices with environmental, social, and economic sustainability goals.

This Special Issue aims to explore the intricate relationship between digital technologies and sustainability; their potential to drive positive environmental, social, and economic outcomes; delving into issues such as inclusion, engagement, responsiveness, and responsibility. It will cover topics bordering on green computing, smart cities and urban sustainability, digital inclusion and equity, data privacy and security in sustainability contexts, and collaborative efforts and platforms for sustainability. These topics are not exhaustive, and other topics aligned to the Special Issue are welcome. The general question to be addressed is ‘How can society ensure digital technologies are designed and used responsibly to ensure sustainability in business which will lead and contribute to sustainable development?’

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
