Message from the Guest Editor

We are releasing a Special Issue of *Sustainability* titled “Environmental Pollution and Monitoring”, and are calling for the submission of quality review or original research articles. This Issue aims to publish highly rated and innovative manuscripts describing the pollution and health effects of foreign materials, such as physical, chemical and biological constituents in environmental samples. The scope of this Special Issue will cover the deleterious effects of these foreign substances on environmental media such as hydrosphere (water pollution), lithosphere (soil pollution), atmosphere (air pollution), and biosphere (plants and animals).
