submissions:

30 July 2024

Message from the Guest Editor

Dear Colleagues,

The multiple sustainability challenges of climate change, biodiversity loss, and the waste crisis clearly require ambitious goals from decision makers at different levels today. A particular role is going to be played by the sustainability transformation in business that will come through the transition from the provision of goods to the provision of services, the AI-powered transformation of our daily lives, new forms of transportation, smart construction, etc. This Special Issue will be devoted to the whole spectrum of green business transformation issues, ranging from investment criteria and new business models to empirical evaluations and the comparative assessment of strategy.

In this Special Issue, research areas may include (but are not limited to) the following:

- Taxonomy of sustainable investments, regional trends, and priorities;
- ESG investment;
- Impact investment;
- New sustainable business models;
- New sustainability regulations;
- Sustainable innovation in agriculture, transportation, construction, and tourism.

I look forward to receiving your contributions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
