**Prof. Dr. Elena Magaril**

Department of Environmental Economics, Ural Federal University, Mira str, 19-418A, 620002 Ekaterinburg, Russia

Deadline for manuscript submissions:

**closed (31 December 2021)**

### Message from the Guest Editors

The problem of proper waste management is a priority both in advanced economies and in developing countries. The application of the principles of circular economy allows the maintenance of secondary resources in the production circuit and the preservation of primary reserves. The focus of this SI is based on researches and case studies that examine the issue of waste management not only from a technical and engineering point of view, addressing innovative solutions, but also economically, focusing on the main challenges and opportunities in the cycle of recycling, recovery, regeneration and reuse of waste, and the necessary involvement of the population, as a fundamental element on which the applicability of the principles of the circular economy is based. Penetration of the principles of the circular economy into the waste management scenarios requires new political and legislative decisions as well as a favorable social context.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
