Deadline for manuscript
submissions:

2 September 2024

Message from the Guest Editors

A central theme of this Special Issue will be the concept of life cycle sustainability, which refers to the integration of economic strategies with ecological principles throughout the life cycle of a product or service. Contributions will shed light this approach and the ways that it can be used to foster a sustainable balance between nature and nurture, as well as the relationship between our socio-economic activities and the natural world. This Special Issue also aims to search for a new paradigm for theory and action. Central to this paradigm will be the One Health perspective, which champions a unified strategy to enhance the well-being of humans, animals, and the environment.

In sum, the overall goal of this Special Issue will be to spark a discussion about how to embed economic development within the framework of ecological sustainability. This Special Issue will explore innovative strategies to achieve this goal and pave the way for a future in which the synergy between ecology and economy is a reality.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
