### Message from the Guest Editors

This Special Issue focuses on gray shades of sustainability issues in organization management. Many studies have suggested that organizations should improve members' positive attitudes towards the environment through various management activities, effectively enhance the performance of green product development, minimize the impact on the environment, meet consumer needs, improve the quality of life, and reduce waste and carbon emissions. As a result, green product management and organizational management can help us achieve the Sustainable Development Goals (SDG) and will play an essential role in our society. Topics of interest include (but are not limited to):

- 1) The gray shades of sustainability issues in the public or private domain.
- 2) The sustainability assessment of environmental protection standards in organizational structure design, development, production, and employees.
- 3) Ecological crises in organization management for governments, companies, and stakeholders.
- 4) The development of financial technology and sustainable development.
- (5) Corporate Social Responsibility in public or private domains.

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
