Message from the Guest Editor

Dear Colleagues,

Sustainability is offering a Special Issue on the topic of accessibility, inclusivity and sustainable tourism: management and marketing. In accordance with the growing importance of these topical areas, we are seeking submissions of the very highest academic quality of either conceptual or empirical research, including primary research and/or secondary data analysis, which contributes to the topics of accessibility, inclusivity, and sustainable tourism with a particular focus on management and marketing of tourism product and services in business-to-business as well as business-to-consumer contexts.

We are not accepting commentaries, opinion pieces, or descriptive studies. In line with the journal's guidelines, we will keep the breadth and focus of the topic necessarily broad in order to promote interdisciplinary contributions on those subject areas. Papers selected for this Special Issue are subject to a rigorous peer review process with the aim of dissemination of research results that have management or marketing applications.
