Message from the Guest Editors

The Special Issue entitled "Advances in Rock Mechanics and Geotechnical Engineering" is devoted to the publication of the latest research, field works, and laboratory investigations in the area of rock mechanics geotechnical engineering. This Special Issue and publishes novel contributions in different areas of geotechnical and geomechanical engineering such as slope and embankment, tunneling and underground space technologies, pile and foundation, rock mechanics and rock blasting, excavation and leveling projects, ground improvement techniques, unsaturated soil, practical issues in soft soil, mining technology, geoenvironmental engineering, new laboratory testing, applied geology for construction, novel geotechnical construction methods.

The focus of this Special Issue is on the development of computational methods for solving problems in the fields of rock mechanics and geotechnical engineering. It can also be concerned with the most important artificial intelligence, optimization algorithms, hybrid intelligent systems, and their applic tion in the geotechnical and

Editor-in-Chief

Prof. Dr. Marc A. Rosen Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas sustainability related to and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
