Deadline for manuscript submissions:

**closed (31 March 2022)**

### Message from the Guest Editors

Dear Colleagues,

The concept of ecosystem services (ES) has gained global attention both in scientific studies and in policy-makers' agenda after the publication of the Millennium Ecosystem Assessment (MEA) in 2005. In line with the MEA, the assessment of ES has become of crucial importance for the effective integration between conservation and development policies, and for the implementation of green accounting at local, national, and regional level.

With this Special Issue, we want to promote an updated picture of the current state of ecosystems services' assessment, covering all—provisioning, regulating, supporting, and cultural—categories of services provided by natural and seminatural (agricultural) capital.

We encourage the submission of studies from all scientific fields embracing any assessment tools, theoretical and methodological contributions, reviews and case studies from different regions of the world, to promote advancement of scientific knowledge on ES and awareness of information.

Prof. Sandra Notaro

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
