University (UNU-FLORES), 01067
Dresden, Germany

Deadline for manuscript
submissions:
closed (30 April 2021)

Message from the Guest Editor

This Special Issue is particularly interested in capturing how sustainable waste management can be used to expedite our transition to a circular economy. You are invited to contribute with new technologies, their implementation, policy analysis/adaptation (including the Sustainable Development Goals), socioeconomic aspects, and, most importantly, case studies that cover one or combination of topics. While the main emphasis is on solid waste, circular economy applications arising from water recycling are also welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
