and Technology (KAIST), Daejeon  
34141, Korea

Deadline for manuscript  
submissions:

**closed (30 June 2022)**

### Message from the Guest Editors

The word "SMART" is one of most popular keywords for representing recent research topics on manufacturing as well as logistics. With the advancement of various technologies, manufacturing and logistics are gradually developing, and in particular, the issue of environmental considerations, referred to as sustainability, is a topic that should be dealt with, as important as it is.

This Special Issue will emphasize the impact of the development of innovative theories, models, systems, and applications of advanced technologies facilitating smart manufacturing and logistics. Sustainability, in this Special Issue, can be considered in the efficient monitoring and use of energy and resources during production and logistics, reduction of waste, elimination of environmental harmfulness, etc. Collaboration can also be considered among cooperating companies, business partners, human workers, robots, machines, and even products or parts.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
