Message from the Guest Editors

Sustainability is announcing a Special Issue dedicated to the topics of community resilience and sustainable livelihood development. This Special Issue will provide an outlet for cutting-edge praxis research by scholars who contribute insight into theoretical development in these domains.

We are particularly interested in scholarly analyses, especially rigorous case study analyses, that generate novel and innovative insights around the following questions:

Could resilience be a meta-narrative for integrative development praxis?

What are the strengths and limitations of normative and descriptive depictions of resilience in promoting livelihood development?

How does context (geo-political, socio-economic, and cultural) influence the interpretation of community resilience and sustainable livelihood development?

What wants, hopes, and aspirations (e.g., justice, equity, rights, empowerment, self-determination, and inclusion) are being sacrificed to sustain livelihoods and build resilience in the Global South?

Can the persistence, adaptation, and transformation of livelihoods be simultaneously supported for resilient development?

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
