Technology, Research Centre for
Tourism, Sustainability and Well-
Being, University of Algarve, 8005-
139 Faro, Portugal

Deadline for manuscript
submissions:

closed (31 July 2021)

Message from the Guest Editor

In this Special Issue, we invite papers focusing on, but not limited to, the following topics: Nature-based solutions for carbon neutral cities and improved air quality; biophilic design; landscape urbanism; urban regeneration; climate change adaptation and mitigation.

We encourage contributions that present successful cases of designing healthier, greener, resilient cities, with better living conditions for all, improved air and water quality, enhanced human health and wellbeing and improved mobility conditions.

We encourage contributions that demonstrate successful cases of increasing city resilience to climate change thanks to the implementation of nature-based solutions.

an Open Access Journal by MDPI

USA

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
