Message from the Guest Editors

Differences among countries in terms of levels of technological development and investment capacity largely stem from the society's dominant cultural background. The grid of values in a society plays a special role in motivating and encouraging its members to innovate. An effective way of keeping enterprises and organizations competitive is by developing an entrepreneurial culture that boosts innovative activity and thus maintains competitive advantage. Thus, culture should be considered a strategic instrument for achieving competitive advantage through innovation. Culture encourages innovation and creativity and motivates individuals or groups to foster the spirit of entrepreneurship.

This Special Issue aims to publish high-quality theoretical or empirical research papers that are going to explore the cultural dynamics that affect the innovation performance of the economies. The scope is to highlight the direct and indirect channels through which the cultural dynamics lead to innovation outcomes and identify other factors that may intervene in this process. International or country-specific research is welcomed.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
