

## Decision Support Systems and Knowledge Management for Sustainable Engineering

Guest Editors:

**Assist. Prof. Athanasios P. Vavatsikos**

**Prof. Dr. Dimitrios E. Koulouriotis**

**Dr. Ioannis Nikolaou**

**Prof. Dr. Konstantinos P. Tsagarakis**

Deadline for manuscript  
submissions:  
**closed (31 March 2020)**

### Message from the Guest Editors

Modern engineering approaches focus on the design and operation of systems and products in a way that allows for the sustainable use of resources. Sustainable engineering aims to provide frameworks that ensure development without compromising the quality of the natural environment and the ability of future generations to meet their own needs. In that context, decision making processes must be enriched by approaches and tools that allow decision makers to consider a wide range of sustainable options.

This Special Issue welcomes contributions on theory, methods, and applications, as well as case studies coming from cross-discipline aspects of sustainable engineering, economics, production, energy, and the environment. The Special Issue will be a reference for the way in which a variety of quantitative approaches can assist the design, planning, and evaluation of candidate sustainable options and strategies.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
