Message from the Guest Editors

Digitalization helps to transform economies through supporting inclusive growth and enhancing economy-wide productivity, with an important role for digital finance and trade. More recently, initiatives on sustainable digital finance and green fintech have been at the core of a new strand of research on the nexus between digital finance and environmental sustainability. In addition, the promotion of a sound and efficient digital payments system, both at national and cross-border levels, is an important mechanism for reducing inequality. Recognizing the faster pace of digital transformation and innovations in digital finance post-pandemic, striking the right balance between financial regulation and enabling financial innovation is key. Likewise, digitalization in trade finance helps to promote greater economic integration and competitiveness. The link between digital finance and sustainable economic and environmental outcomes is currently not very well understood, while many economies lie at different stages of financial development and digital finance adoption.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
