Deadline for manuscript submissions:

closed (31 March 2022)

Message from the Guest Editors

Over the past two decades, public administrations have embarked on numerous modernization initiatives and measures that rely on modern information and communication technologies (ICTs). These efforts and outcomes have been labeled “**Digital Government**”, which can be viewed at least through four lenses, all of which can be set into relationship to the seventeen **Sustainable Development Goals (SDGs)**.

The intersections between SDGs and digital government provide a vast array for investigating current practices as well as identifying future opportunities for advancing SDGs by means of digital government.

We invite submissions of high-quality papers that employ quantitative, qualitative, and mixed-method research approaches. In addition to single-discipline-based studies, we explicitly encourage submission of multidisciplinary and interdisciplinary research reports including human-computer interaction and design studies. We also welcome submissions that employ qualitative approaches such as participatory action research, but also quantitative approaches, for example, computer simulations.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
