Message from the Guest Editors

For this Special Issue, the journal is calling for papers that examine the link between digital health services and sustainability. This Special Issue will focus on how the digitalization of health services can meet the challenges of the future.

The rapid changes in the field underscore the need for increased research focus. Health services face vast challenges that will increase in the years to come. Digital health service (or eHealth) is viewed as an important instrument to meet these challenges. Internet and digital technologies change our world, but old boundaries, thought patterns, and regulations prevent communities and countries from fully utilizing digital capabilities. Even though the innovative initiatives are manifold, the complexity of the context often leads to failure in their implementation or less-than-optimal solutions.

We welcome contributions on a broad scale. The broadness applies both to the field of health care, the field of digital health service, and to how sustainability is interpreted and operationalized.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
