closed (8 March 2024)

Message from the Guest Editor

This Special Issue would explore cross-disciplinary approaches, methodologies, and applications of disaster risk reduction systems, tools, procedures, and models that can be incorporated into a resilient built environment. This Special Issue invites researchers in urban planning, civil engineering, construction management, sustainable development, public policy, and other disciplines and cross-disciplinary fields. Relevant topics include but are not limited to the following areas:

- Disaster resilient built environment;
- Disaster risk reduction knowledge-based systems;
- Disaster risk reduction, sustainability and circular economy;
- Disruptive technologies as a solution for disaster risk reduction in the built environment;
- Mathematical and simulation tools for reducing disaster risks;
- Disaster resilience assessment tools for the built environment;
- Mitigation, preparedness, response, and recovery;
- Sendai Framework for disaster risk reduction in the built environment;
- Resilience and sustainability—design, procurement, construction and post-disaster reconstruction

an Open Access Journal by MDPI

Editor-in-Chief

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
