Message from the Guest Editor

Dear Colleagues,

The year 2020 proved to be something nobody expected. We have faced a global pandemic, experienced social distancing, seen overcrowded hospitals, death, fear, and grief. Additionally, the world economy has seen huge challenges. Supporting mental, physical, and social well-being has increasingly become a global focus. During these challenging circumstances, the role of smart eHealth and eCare technologies has increased extensively.

This Special Issue will offer a forum for spreading best practices, including some of the latest technological advances and ideas for lowering risk, promoting health, and maintaining the quality of life during pandemics, with the help of modern technologies and digital services.

This Special Issue takes a unique multidisciplinary approach to the topic, with special attention to smart technologies and digital services. We, therefore, invite research articles, review, and viewpoint manuscripts devoted to various applications of smart eHealth and eCare technologies focused on enhancing holistic well-being during pandemics.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
