### Message from the Guest Editors

Dear Colleagues,

This Special Issue on “Eco-Sustainable Development and Circular Economy” represents a forum for experts such as management scientists, engineers, economists, social and political scientists, and industry experts to discuss, in a systematic way, the concepts of circular economy and eco-sustainable development, to bring a new and interdisciplinary approach to these two concepts. Focusing on reducing non-renewable resources and introducing innovative and eco-sustainable elements into the consumption phase makes the circular economy an important strategic model to address substantial environmental challenges, such as resource scarcity, global warming, and waste management, as well as economic, human, and technological changes. The focus of this Special Issue on “Eco-Sustainable Development and Circular Economy” aims to bring a new and interdisciplinary approach to these two concepts, circular economy and eco-sustainable development.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
