submissions:

1 November 2024

Message from the Guest Editor

Dear Colleagues,

Smart cities, eco-cities, green transport and sustainability are the main characteristics of the cities of future. This Special Issue aims to collect the original contributions of researchers, practitioners, and professionals from both industry and academia in the field of smart cities, eco-cities, green transport and sustainability. This Special Issue will publish paper proposing solutions to eco-cities, green transport and sustainability. It will be written for academics and professionals who want to improve their understanding of smart cities, eco-cities, green transport and sustainability.

The target audience of this call for papers will be composed of professionals and researchers working in the field of smart cities, eco-cities, green transport and sustainability. Moreover, this Issue will provide insights and support executives concerned with the management of expertise, knowledge, information and organizational development in different types of work communities and environments.
