Deadline for manuscript  
submissions:

**closed (30 June 2022)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Sustainability* will be devoted to cutting-edge research addressing the issues of green economy, macroeconomic sustainability, and resilience in the light of climate change at the macro level. A lot of the top sustainability issues are being addressed at the international and ultimately national level through an intertwined set of policies, including sectoral policies; resource, carbon, water, and waste taxation; adaptation measures; and innovation. We need a better understanding of key intervention points and transformation mechanisms, creative policies, and new forms of regulation, as well as mitigation and adaptation strategies.

Papers addressing the following topics will be considered: sustainable development indicators, performance assessments, sustainable development across economic sectors, governance for sustainability, climate change mitigation and adaptation, decarbonization, and food security. Particular emphasis will be given to empirical studies with a clear policy focus. Articles are invited from a broad range of regions from all across the world.

I look forward to receiving your contributions.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
