Message from the Guest Editors

Dear Colleagues,

This SI intends to collect contributions in line with this model, considering it a solicitation towards fruitful interactions between private economic activities and public institutions, enabling greater operability, reflexivity, and resilience in rural areas. This approach has often been associated with the creative revision of community practices, as well as bureaucratic and/or associative practices, in which local governance includes external or "neo-endogenous" actors, and participatory processes in planning local regeneration ensure the benefits of the local territory.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

social and cultural anthropology, geography, rural economy, rural sociology, sustainable development studies, ecology.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
