Deadline for manuscript  
submissions:  
**closed (31 March 2023)**

### Message from the Guest Editors

Dear Colleagues,

The world is facing unprecedented biodiversity loss due to rampant ecosystem degradation that is further accelerated by climate change. The effective implementation of ecological restoration at local, regional and national level can bring diverse benefits not only for the environment but also promote social and economic sustainability to communities. Ecosystem restoration is the supremely important science for the Anthropocene and requires collaboration of experts from diverse disciplines such as social sciences, economics, life sciences, earth and environmental studies, along with policy makers and industrial partners can bring in pragmatic solutions to halt and/or reduce biodiversity loss and protect natural resources from further degradation. This approach contributes to, the Nationally Determined Targets, the Post 2020 global biodiversity targets, focusing on developing a mutually beneficial relationship between people and nature, the UBCCD targets for Land Degradation Neutrality and the success of the UN-Decade on Ecosystem Restoration (2021-2030).

We look forward to receiving your contributions.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
