### Message from the Guest Editors

The focus of this Special Issue is on mid-career faculty. We seek research and practice that emphasize the importance of social sustainability and/or thriving of faculty, whether associate or full professor, firmly situated in the mid-career stage. We welcome manuscripts that feature the experiences of mid-career faculty or the professional development programs that are aimed at providing them with much needed support and resources. We are looking to include manuscripts that represent different institutional and disciplinary settings and targeted faculty populations.
