Message from the Guest Editors

Dear Colleagues,

The latest trend in energy markets, resulting in energy price increases and biased consumer responses, is the result of a combination of demand and supply factors, the external shock of the pandemic and global climate change dynamics. Therefore, the international scientific community is being called to reflect upon the role of actual markets, the response of consumers and societies as a whole and innovation policy strategies to facilitate the adoption of renewable energy.

This Special Issue will present current and future research trends in renewable energy with a focus on social acceptance, markets and innovation policies. Topics of interest include (but are not limited to):

- Demand and supply analysis of current renewable energy markets;
- Current and future renewable energy technology adoption;
- Innovation policies and strategies for renewable energy;
- Social acceptance of renewable energies;
- Renewable energy technologies and the transformation of the global economy;
- Education on the renewable energy transition;

...

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
