### Message from the Guest Editors

Dear Colleagues,

The primary focus of this Special Issue is on education in engineering for sustainable development using a forward outlook-based approach.

We expect proposals in the area of engineering education that integrate a prospective view based on personal, professional and social visions of the future. This proposition would identify the potential for the integration of an outlook for the future that can guide and shape the meaning of professional work as well as the impact of professional action in the development of future sustainable societies.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
