Deadline for manuscript submissions:

closed (31 January 2021)

Message from the Guest Editors

For this Special Issue, we would like to invite contributions that focus on the development of migration aspirations when facing environmental changes and hazards. The main aim of this Special Issue is to shed light on the issues scholars are facing when measuring and examining the development of migration aspirations related environmental change, to better understand how environmental factors influence migration decision-making and the development of aspirations as well as to discuss the vulnerabilities of people affected environmental change depend on a multiplicity of factors.

We would especially like to invite contributions 1) examining the development of migration aspirations, or the lack thereof (i.e., immobility/not being able to aspire to migrate), 2) using a comparative approach, or 3) studying migration aspirations retrospectively (i.e., after having migrated or from a biographical perspective).

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications, I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
