Deadline for manuscript  
submissions:  
**closed (30 June 2022)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue offers the possibility of sharing the latest scientific advances in agriculture that allow it to meet the growing needs of the population and its dietary culture, and to contribute positively to the scope of the Sustainable Development Goals (SDGs) of the United Nations. Under a changing climate, it is important now as well as in the near future for agriculture to offer sustainable food systems. The sustainable development of agriculture, however, is a complex issue. Sustainability analyses require long-term series of experimentations or time series projections to evaluate the environmental impact of different management practices and climate conditions.

We are pleased to invite you to contribute to this Special Issue on “Environmental Sustainability of Agriculture in a Changing Climate” in *Sustainability*. The Special Issue focuses on the analysis of the environmental sustainability of agriculture from farm to global level within a complex environment now and in the near future, considering a multidisciplinary approach, according to the Sustainable Development Goals (SDGs) of the United Nations.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
