Deadline for manuscript  
submissions:

**closed (31 December 2022)**

### Message from the Guest Editors

I would like to invite you to participate in this Special Issue of *Sustainability* titled “Sustainable Evaluation and Competitiveness in Food Production”.

The agri-food sector is one of the most impactful worldwide. For this reason, it is necessary that the entire agri-food supply chain begins to be more sustainable throughout the entire production process (from raw material procurement to waste management). There are many tools to assess the sustainability of processes and products. Although the impacts associated with food production can also be assessed using spatial methods or methods based on point of production, life-cycle assessment (LCA) and the tools deriving from it (e.g., life-cycle costing, carbon footprint, water footprint) are widely used to evaluate the sustainability and competitiveness of food production. This Special Issue focuses on reviews, research papers, communications, and short notes regarding all aspects of sustainable food production. However, papers on other aspects of the sustainability and competitiveness of food production are also welcome.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
