Message from the Guest Editors

This Special Issue is planned to cover climate and extreme change processes, including natural processes, such as flood, heat wave, earthquake or landslide, and also to consider their impacts on natural and human dimensions: the societal and economic processes, such as economic vulnerability and social sustainable development. For this purpose, studies related, but not limited, to the following topics are invited for submission:

1. Climate and extreme change, processes and assessments;
2. Natural dimension response, e.g., agriculture, forest, wetland, grassland, etc.;
3. Human dimension responses, e.g., economy, population, health, management, etc.;
4. Related natural disasters and their impacts;
5. COVID-2019 and ecological and social–ecological impacts.
