### Message from the Guest Editor

Dear Colleagues,

Over the last 50 years, food systems globally have undergone profound transitions. In most countries around the world, food environments are increasingly being dominated by large multi-national food retailers. This transition has great implications up and down the food chain. The effects of food retail change can therefore have an impact on environmental health related to farming practices, as well as human health in terms of changes in food availability and affordability.

In this Special Issue we aim to produce a collective picture of the impact of food environments and particularly food retail systems at all of these levels, environmental health, agricultural and food producer livelihoods, and consumer and nutrition outcomes. We invite applications that address the impact of food environments in all of these areas. We particularly encourage contributions and analyses from low- and middle-income settings where food retail and food environment change is most recent and still ongoing.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
