Message from the Guest Editors

Dear Colleagues,

Climate change affects four pillars of food security that is availability, access, utilization, and stability. This has serious implications on nutritional security. Papers will cover the impacts of climate change on these pillars, including on crops, livestock, and fisheries

To publish up-to-date papers on the impacts of climate change on food and nutritional security. These impacts of climate change affect sustainable goals of ending hunger and malnutrition in all its forms and sustainable production and consumption as an SDG goal.

The themes are the impact of climate change on food and nutrition security on:

1. Crops;
2. Livestock;
3. Fisheries;
4. Policy related issues to the subject areas.

We look forward to receiving your contributions.

Prof. Dr. Paramu Mafongoya

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
