### Message from the Guest Editors

The key question is: What insights can research provide in this context? Accordingly, this Special Issue will consider submissions of research papers involving, but not limiting to:

1. Food innovations for sustainability and health;
2. Sustainable food supply chain technologies and/or management;
3. The future of food and climate change: innovative green technology in food processing and packaging systems;
4. Farm-to-fork food quality and safety: issues, challenges and systemic approaches.

We invite submissions by scholars from all academic disciplines to shed light on these broad research areas.

Deadline for manuscript submissions:

**closed (31 August 2022)**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
