submissions:

closed (31 March 2010)

Message from the Guest Editor

Dear Colleagues,

The Ecological Footprint has emerged as an aggregated indicator of human appropriation of biocapacity. There now exists numerous policy applications from the approach. This special edition will explore both the successful applications of the Ecological Footprint along with a recognition of its limitations to policy assessment. Additionally, alternative approaches to the Ecological Footprint are welcome.

We invite you to contribute to this special issue by submitting comprehensive review or research articles.

Dr. John Barrett

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
