### Message from the Guest Editors

Dear Colleagues,

Forests are crucial to supporting life on our planet. More broadly, the forest sector plays a vital role in global economics, with an estimated 20% of the global population who depend on forests for their livelihoods. Forest ecosystems also play a critical role in regulating global carbon and hydrological cycles—an integral part of nature-based solutions to addressing needs such as adapting to and mitigating impacts from global climate change, and supporting 80% of all biodiversity on land.

The contribution of forest ecosystems and forest resource management to poverty alleviation has been increasingly emphasized in international policy under the domain of conservation and development. The three international instruments—the 2030 Agenda for Sustainable Development, the UN Strategic Plan for Forests, and the Paris Agreement—provide an interconnected structure for international cooperation to conserve forests, ...

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
