Town and Country Planning,
University of Santiago de
Compostela, 15705 Santiago de
Compostela, Spain

Message from the Guest Editors

This Special Issue is intended to show the recent interdisciplinary development of economic geography and spatial analyses of human behavior, as well as to discuss possible directions for its future development. Economic geography has recently come into collision with numerous topics and conceptual standpoints that lie outside of its traditional areas of focus. We focus on interdisciplinary conceptual connections among the geographical, technological, cultural, economic, psychological, anthropological, sociological, and historical points of view. Topics of special interest are the intersections between economic geography and political economy, information technologies, demography, emotions and affect, the digital world, globalization, and cultural geography. Frontiers in economic geography will complement the existing literature in a useful way, and should contribute new ideas, approaches, orientations, and priorities for an enriching debate on the future of geographical science.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
