Message from the Guest Editors

Dear Colleagues,

Peri-urbanization processes involving urban expansion through land take and soil sealing are massive. The transformations lead to emerging of peri-urban landscapes (PULs), which are transition territories connecting cities with their surrounding environment, where urban, rural and natural or semi-natural characteristics are mixed.

To foster sustainable development, PULs can be approached as interfaces that, beyond many conflicts, can also create opportunities for governance experimentation and thus, for new governance mixes to emerge. In our Special Issue, we are interested in spatial planning-oriented governance mixes which do not refer to a particular type of governance. Governance mixes in our understanding are broader than a combination of different policy instruments and indicate a thoughtful mix of different top-down and bottom-up governance approaches, which are introduced at different administrative levels, bringing different formal and informal outcomes, discussed and implemented by the wide range of governance actors.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
