Message from the Guest Editors

Dear Colleagues,

Green logistics is a fundamental basis for the development of a sustainable economy. Green logistics is very important for the complete cycle of the sustainable circular economy and a main tool for integrated management of the supply chain and for the development of sustainable production and consumption, one of the pillars of the UN's Sustainable Development Goals.

The economy as a whole cannot function without the transport of goods along the supply chains, nor without proper intermodal operations, use of various modes of transport with different characteristics, logistic platforms, and logistical operations to optimize efficiency and effectiveness in the chain.

On the other hand, a sustainable economy needs the development of recycling systems, goods reuse, waste reduction, rethinking of green issues, decision between local and global, use of sustainable transport materials, use of green practices, and elimination and reuse of plastics and packaging, among many other issues.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
