Deadline for manuscript submissions:

**closed (15 May 2023)**

### Message from the Guest Editor

The main goal of this Special Issue, "The Rise of Green Microgrids", is to receive manuscripts that introduce new techniques for the design of electrical microgrids whose primary source of energy comes from a non-conventional renewable source (wind, solar photovoltaic, fuel cells, etc.) with the purpose of reducing the greenhouse effect. Manuscripts including future trends in microgrid design and its implementation are also welcome. Manuscripts can consider isolated microgrids and grid-connected microgrids. The current variety of DC microgrids, AC microgrids, or a combination of DC and AC microgrids can be considered.

an Open Access Journal by MDPI

Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
